experience

ut health science center at houston graphic designer | jan.2016 - may.2020

- created captivating & innovative core collateral to support uthealth & md anderson cancer center brand standard initiatives
- collaborated with clients & communications departments to design a wide-array of print formats for various medical facilities & events including stationary, brochures, posters, banners, calendars, convention programs & medical journals.
- designed & programmed companion websites for large medical seminars.
- redesigned printing services department website & co-developed online stationary ordering system.

brandmuscle graphic designer | mar.2012 - jan.2016

- worked on-site at glazer's wholesale distributing, closely with salespeople & my design team, to create general promotions for various wine & spirits brands.
- designed point-of-sale products such as banners, posters, signage & displays for large & small scale spirits vendors.
- produced table tents, wine & drink list inserts, & full scale restaurant menus for different businesses in & around houston.

internet lava web designer / developer | july.2011 - feb.2012

- consulted with new clients to create a series of branding suite options that would best suit clientele unique visions.
- designed & developed websites for new & existing law firms.
- added dot net nuke integration into html / css websites to prepare them for second phase of development.
- partnered with backend programmer to develop advanced functionality such as rotating banners, interactive maps & comprehensive contact forms
- provided general troubleshooting support for clients.

lazybit collective co-founder / artist | ongoing

- co-founded an independent coalition of audio & visual artists in 2013 with the goal of providing an outlet for local creatives with a passion for retro hardware.
- work closely with our artists to plan individual music releases, help record & master that music, design & produce album artwork & merchandise, as well as book performance dates.
- developed personal creative project: producing & performing chiptune music as well as retro-inspired projection visuals using vintage analog hardware.

education

the art institute of houston ba - interactive media design

- learned to use industry leading software to create websites & other interactive projects, start to finish.
- studied classic & current trends in graphic design from experts in the field.
- acquired hands on training using professional equipment to capture & edit audio / video
